All shipments will be subjected to a fuel adjustment surcharge based on a weekly fuel price index. The index shall be the Department of Energy's U.S. Average On-Highway Diesel Fuel Price Index. This index is available after 4:00 PM on Monday of each week. If Monday falls on a holiday, the index for the next business day that is not a holiday will be used to determine the applicable fuel index. Said index may be obtained directly from DOE by calling 202-586- 6966 or via internet at www.eia.doe.gov.
